openSAP – innovative learning for everyone

What is an **enterprise MOOC**?

SAP expert-led video content covering SAP product and technology topics

Learning together is fun!

Collab Spaces

- A **CollabSpace**, or collaboration space, offers you the opportunity to create a virtual space within an openSAP course
- Every course participant can create a CollabSpace. These rooms can be set as **public** or **private**.
- Following functionalities are available within each CollabSpace:
 - Discussion Forum
 - Text collaboration tool (Etherpad)
 - Video Chat
 - Sharing of files
- Success Story:
 - Enabling Entrepreneurs to Shape a Better World
 - Basics of Design Testing

Are you all ears?

openSAP Podcast

- Series from **SAP experts** and **SAP ecosystem**
- **Complement** your learning by subscribing to your favorite openSAP podcast series using your favorite podcast provider
- **Easily accessible** on any device to stream or download
- Duration 30-60 min

Knowledge bites: openSAP Microlearning

- Brought to you by SAP product experts
- Current topics: SAP C/4HANA, SAP S/4HANA
- **Self-contained** videos to **complement** our openSAP course offerings
- **Fast access** to feature and topic updates and highlights (**system demos**)
- Duration 2 to 12 minutes
- **Easy to consume:** Pick and choose individual videos

Upskilling at your fingertips

Minimum effort, maximum impact

About microlearning on openSAP

With microlearning, you can learn using self-contained videos to get a flavor of a topic or simply to complement your existing knowledge.

Featured learnings

Microlearning for SAP C/4HANA

Microlearning for SAP S/4HANA

Check out the openSAP Microlearning playlists for SAP S/4HANA, based on your preferred line of business or technology topic. SAP S/4HANA is an intelligent, integrated ERP system that runs on the SAP HANA in-memory database. SAP S/4HANA provides next-generation processes that connect and orchestrate your entire business, taking advantage of artificial intelligence so every employee can make smarter decisions, faster. SAP S/4HANA supports hybrid, cloud, and on-premise scenarios.

SAP S/4HANA courses
on openSAP

For full feature highlights and availability information, please refer to the feature scope descriptions for SAP S/4HANA Cloud and SAP S/4HANA in the SAP Help Portal.

Many formats, **different advantages**

	Enterprise MOOC 	Podcast 	Microlearning 
Duration	2-6 weeks	~30- 60 min/episode	2-12 min/microlearning
Learning elements	Video lectures, slides, transcripts, final documents	Audio	Videos, (presentation, demos)
Advantages	<ul style="list-style-type: none"> Focus on one large topic (concept, context, deep-dive) Clear storyline guides the learner through the course (learning elements build on each other) Direct contact with the experts in the discussion forum to ask questions Learning assignments to test your knowledge When applicable additional exercises are provided to apply the learning content using training systems Earn a record of achievement and a digital badge upon successful completion of learning assignments 	<ul style="list-style-type: none"> It enhances your knowledge on a particular topic by expanding on one aspect of it Thanks to the conversational format, it is an easy way to stay up-to-date with the latest news Audio only. It can be consumed everywhere Easy access to new learning topics Latest episodes are delivered to you automatically 	<ul style="list-style-type: none"> Each video is self-contained and focuses on one topic e.g. How to create bookmarks in a SAP Fiori Launchpad It is short and highly focused Thanks to the playlists, the content is aggregated per topic and it is easy to browse

Thank you.
